GUIDELINES FOR SUBMITTING ABSTRACTS: 9th ICCPA

THOMAS W. KIRCHSTETTER, T. Novakov, Cindy Tast, Lawrence Berkeley National Laboratory, Berkeley, California, USA; Tami Bond, University of Illinois, Urbana-Champaign, Urbana, Illinois, USA; Hans Puxbaum, Technical University of Vienna, Vienna, Austria

Please submit your abstract via email, as a PDF attachment, to Cindy Tast (CLTast@lbl.gov). A book of abstracts will be distributed with conference materials, and your abstracts will be included without modification, so it is important to adhere to the few guidelines listed below. When submitting your abstract, please indicate whether you prefer to give an oral presentation or a poster. The scientific and technical program committees will try to accommodate your preference. Results-oriented abstracts will likely be given priority during selection of oral presentations.

Abstracts should fit on a single page (US Letter, 8.5 x 11 inches) with at least 1 inch margins on all sides. Please use Times New Roman font (11 pt or larger). The title should be capitalized and appear in bold font. Below the title, list the name(s) and affiliation(s) of the authors, capitalizing the full name of the presenter. Email addresses are optional. Symbols may be used at will, but remember to check that they appear correctly in your PDF version. Note: This page adheres to the recommended format.

You are welcome to submit your abstracts in advance of the due date (15-May 2008).
